» OPEN DAY

THURSDAY 7TH OCTOBER

All welcome at our  
Pre-Sale Open Day to  
INSPECT our Sale Bulls.

10AM TO 3PM

WELCOME to our 3rd Annual Spring Bull Sale.

I'm pleased to be holding our third annual Spring Bull Sale in a few weeks & to be presenting to you the stud's best line-up of bulls offered yet.

After going through a wet cold winter here in West/South Gippsland the sale bulls are looking magnificent. They handled the tough terrain & weather conditions well & are ready to go to work.

A range of renowned sires who present with enhanced data, softness & structural correctness have sons featured in the October 15th auction.

We are very excited to have on the ground this year progeny from sires purchased in 2020, including Landfall Leonardo P145, Te Mania Prime P586 & Landfall Prominent P317.

All Sires used in the 2020 breeding program include Sitz Stellar, Bon View ET calves Enhance Fireball, SAV America & a sire who continues to impress, Baldrige Command.

These top sires have introduced softness, structure, phenotype & great data to the herd.

Landfall New Ground N90 whose progeny will be selling in the Autumn 2022 bull sale are looking impressive, along with Landfall Keystone & Sitz Stellar sons & daughters.

It is pleasing the foundation herd continues to produce great genetics & a testament to our commitment & investment to breed great cattle that deliver at market.

Structure, phenotype, depth, resilience & geographical adaptability remain at the centre of our breeding focus.

Our aim is to continue to improve the studs' maternal line strength using the above-mentioned sires and future investment in other elite sires to achieve these goals.

Look forward to seeing you at our both our Open for Inspection Day and on Sale Day. We are interfacing the sale with AuctionsPlus for those clients who are unable to join us in Trafalgar South on Friday 15 October.

Cheers  
Anthony

# STUD NEWS

WHEN OUR VERY OWN SUPERSTAR STUD BULL, **NEW GROUND N90**, MAKES THE FRONT COVER! NEW GROUND SONS WILL BE AVAILABLE AT THE AUTUMN 2022 BULL SALE.

## NEW STUD SIRE - MILWILLAH RIMFIRE R1023

We continue to invest in the best bulls the industry has to offer with the recent purchase of Milwillah Rimfire R1023 for \$80,000.

A son of S Powerpoint WS5503 & Angus royalty in his dam line we are excited to see this promising young sires' genetics on the ground in 2022.

"Physically he's showing characteristics very similar to previous leading sires from his dam Barunah K26. The development of the bull over the last 6 weeks has really surprised me.

He has a very strong spine, with superb fill behind the shoulder, a softness of flank & a ham or deep muscling down the leg that is hard to find on an angus bull of any age, let alone a 14 mth old. Rimfire's structure is near faultless with a rear leg angle that is favourable.

The combination of pedigree & EBV's is appealing, with his dam Barunah K26 a cow that has proven herself time after time. The softness & early fat cover of R1023, with Matauri Reality present in pedigree is in my opinion very important to keep adding to the Absolute Angus cow herd"

Will Caldwell, Milwillah Angus

## OCTOBER SALE BULL SIRES

We use continue to use genetics from a range of industry leading studs known for genetic performance such as Landfall, Te Mania, Ardrossan, Milwillah & selected elite USA studs.

The proof of our genetic investment in our foundation herds is now coming through the sale teams. When the bulls leave our stud their development takes-off; just "amazing, beautiful animals".

The bulls on offer are genetically well put together with something to suit a range of producers, with bulls across this year's Spring Bull Sale having the right attributes that farmers and commercial breeders are looking for.

Buyers will find a range of well-muscled, powerful sons from Ardrossan Honour, Ardrossan Edmund K1651 & Baldrige Command in the senior bulls.

In the yearling bulls sire groups progeny from Landfall Keystone K132, Ardrossan Honour, Gdar Regulator, and Ardrossan Equator A241 are selling.

The majority of bulls showcased in the auction catalogue are suitable for heifer joining, presenting with low BWT, high growth, good carcase, EMA, IMF and fat cover in their EBV's.

WE WELCOME ALL ENQUIRIES TO PURCHASE BULLS & COMMERCIAL CATTLE AS WE BREED WITH THE COMMERCIAL & REGISTERED BREEDER IN MIND.
